### Love your outdoor retreat

With its clean, sleek lines and no ugly exposed railings, fencing made from COLORBOND® steel looks great whichever side of the fence you're on. You can choose the fence or gate design you want and personalise it by adding lattice, pickets, slats and post caps. Check with your fencing supplier.

### Make the right choice

Thinking about different fencing materials? Wherever you live in Australia, you can rest assured that all genuine COLORBOND® steel is made by BlueScope Steel to consistently high standards.

COLORBOND® steel is 100% termite proof and, unlike fencing made from some other materials, a fence made from COLORBOND® steel won't rot.

It's also non-combustible and fire resistant. That's important when you consider that 20% of Australian homes in metropolitan and surrounding areas are within 700 metres of bush†. A fence made from COLORBOND® steel is a smart choice, providing you the security you need and good looks that last.

Think strength ...  
think COLORBOND® steel

Leading scientists have been testing COLORBOND® steel for over 40 years in some of our country's harshest climatic conditions. So you have the peace of mind of knowing COLORBOND® steel is made and tested for Australia and backed by a warranty\* from BlueScope Steel, one of Australia's largest manufacturers.

### Feel safe and at ease

When installed correctly a fence made from COLORBOND® steel has smooth surfaces and close fitting panels without any vertical gaps, obvious footholds or loose palings. This helps keep your home private and secure so you can be more confident your kids and pets are where they should be.

### Sit back and relax

No more painting, oiling or having to nail palings back on. Fencing made from COLORBOND® steel is low maintenance giving you great value for money. All it needs is an occasional wash and removal of any debris to keep it looking beautiful well into the future.

# Colour your world

There are 14 designer colours^ to choose from, all inspired by nature. So whether you want light or dark, delicate or deep, you'll find the perfect tone to complement your home and surroundings.

## Make sure it's the real thing

Not all coloured steel fencing is made from COLORBOND® steel. Be sure to get what you pay for. Fencing made from COLORBOND® steel is branded with a subtle laser engraving (on either side of the fence) at least three times on each 2.4 metre fencing section.

Superior performance, quality and value-for-money. Only genuine COLORBOND® steel is backed by a warranty\* from Australia's BlueScope Steel. Look for the brand.

## Why is COLORBOND® steel so tough?

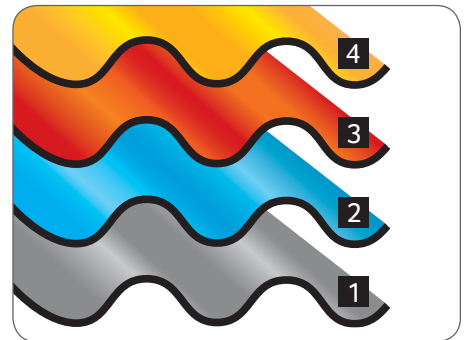

Panels made from genuine COLORBOND® steel are made in Australia from start to finish, using an advanced 4-step process to ensure it lasts beautifully.

**Step 1.** A base of ZINCALUME® steel ensures outstanding anti-corrosion performance.

**Step 2.** A conversion layer is chemically applied to enhance coating adhesion.

**Step 3.** A polyester primer is baked onto the surface.

**Step 4.** A topcoat of specially developed exterior grade lead-free paint is baked on for maximum resistance to chipping, peeling and cracking. Our Super Polyester technology ensures the painted finish retains its "as new" look for longer.
